Vertex Certified Training Program
Indirect Tax O Series® North America - Sales Tax Version 8.x

Overview
Welcome to the Vertex Certified training program! During this program, you will have access to a curriculum of courseware designed to teach you everything you need to know about Vertex Indirect Tax O Series 8.x for sales tax in North America. The courseware includes a series of self-paced e-learning modules, as well as scheduled virtual classes. Additionally, you will be given the opportunity to validate what you have learned via the knowledge and performance examinations.

Program Level
Advanced

Prerequisites
To complete the Vertex Certified training program, you should have the following:
- Working knowledge of sales and use tax concepts
- Real-world experience in a related role is recommended, but not required (refer to Intended Audience below).
- Familiarity with your company's tax reporting requirements
- Experience with Windows-based navigation
- Experience with learning in an online format
- Comfort working in a self-directed manner is recommended, but not required.

Intended Audience

The intended audience for this certification includes Tax or IT professionals who need to demonstrate thorough knowledge of and competency with using Vertex O Series as part of their job function. Participants should ideally have one to two years of sales and use tax compliance industry experience and a working knowledge of sales and use tax concepts before beginning the program.

Benefits

Benefits of certification include the following:

- Recognition in the Vertex community as a proven tax professional
- Use of the Vertex Certified logos to promote your new designation
- Vertex training discounts - Receive a 10% discount on additional Vertex training
- Custom entry in the Vertex Certified Directory on the Vertex website

Technical Requirements

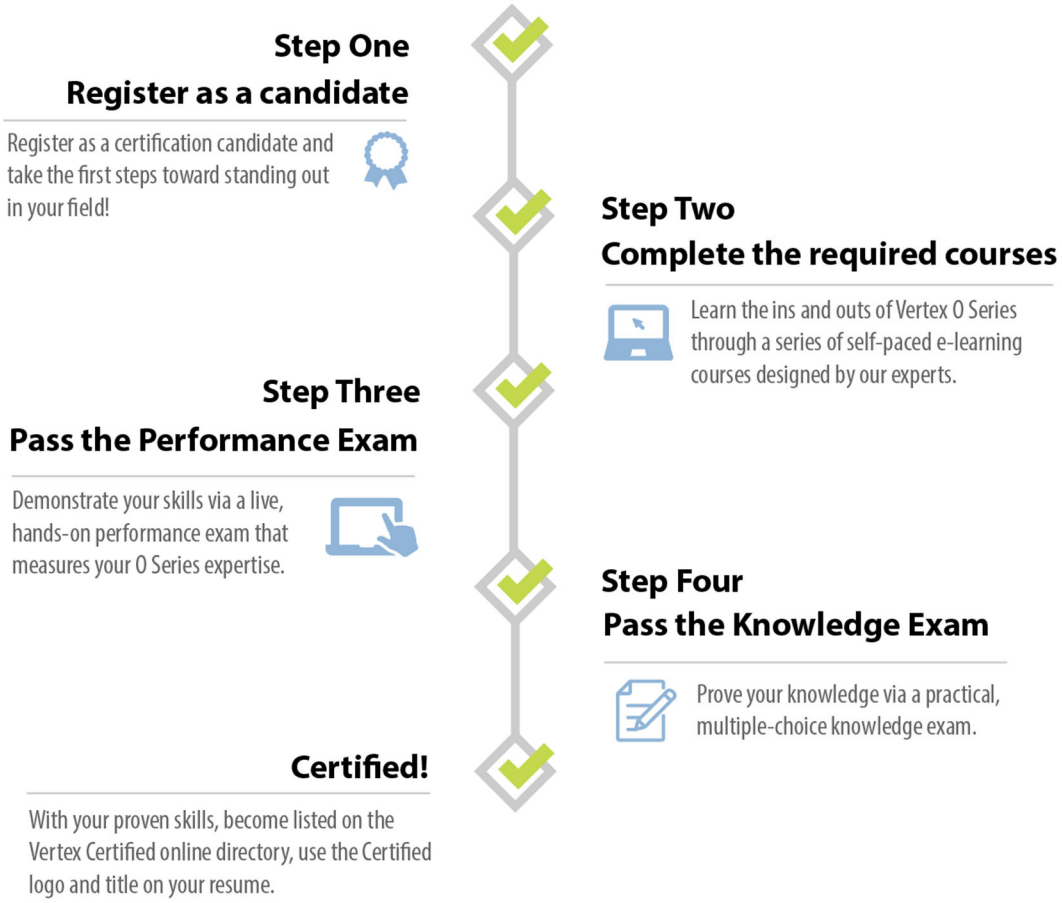
To participate in the Vertex Certified training program, you will need a desktop computer that meets the minimum system requirements. You do *not* need to have the Vertex software installed on your computer to participate. For virtual classes, you will also need a phone.

Please use the following table as a guide to the hardware and software requirements:

Item	Minimum or Recommended Requirements
Supported Browsers	Computer with one of the following browsers: • Internet Explorer (version 11 or higher) • Mozilla Firefox (current version) • Safari (current version) • Google Chrome (current version) ***Note**: At this time, while some courses may be accessible via mobile device, this is not supported.*
Hardware	
Display	• Minimum 1280 x 720 screen resolution
Other	
Plug-ins	• Latest version of Adobe Flash Player; get the latest version at http://get.adobe.com/flashplayer
Minimum Bandwidth	• Broadband internet required
Pop-up blockers	• You may need to disable pop-up blockers to view certain types of content. • Instructions for how to do this can be found via an Internet search or by contacting your browser's Support.

Steps to Become Certified

To become certified, you must register as a candidate for the certification, complete the required course curriculum, pass a performance examination, and pass the knowledge examination.



Previously Certified?

Have you already achieved 6.x and/or 7.x certification? We offer an accelerated path for you to certify on the current version. Vertex Certified graduate candidates can achieve 8.x certification by completing the following requirements. Note that the complete learning curriculum is available to you to prepare for the exam, but completing it is not required.

Step One
Register as a candidate

Register as a certification candidate. Upon verification of your 6.x and/or 7.x certification, you will receive a discounted rate.

Step Two
Enhancements Course

Learn about the enhancements to Vertex Indirect Tax O Series.

Step Three*
Pass the Knowledge Exam

Prove your knowledge is current via a practical, multiple-choice knowledge exam.

Certified!

With your proven skills, become listed on the Vertex Certified online directory, use the 8.x Certified logo and title on your resume.

14. Knowledge Examination		
Activity	**Description**	**CPE Credits**
Self-Paced	A knowledge-based exam to test concepts you have learned.	No

Additional Information

Recommended Completion Time for Vertex Certification

We generally recommend that learners complete each certification track within six months to one year of enrollment date. We have found that learners who complete the program within this time frame tend to stick with the program and get the most out of it.

Required Completion Time for CPE Credits

Please note that if you are interested in obtaining CPE credits for the courses completed as part of the Vertex Certified program, each course (and its associated learning review exam) **must be completed** within one year of purchase/start date to qualify for CPE credits.

CPE Certificates

The courses in the curriculum are eligible for CPE credits as outlined in the course details section; the self-directed projects and exams are not. As you complete your courses, your CPE certificates will be issued. Please allow 4-6 weeks for processing.
