FOR IMMEDIATE RELEASE

Vertex Hosts Bicycle Collection Drive for Global Charity
Company aids developing country with monetary and bicycle donations

BERWYN, Pa. – November 12, 2008 – [Vertex Inc.](http://www.vertexinc.com), the leading provider of enterprise corporate tax solutions, recently hosted a community outreach program for [Pedals4Progress](http://www.pedals4progress.com) (P4P), a 501(c3) charitable organization that collects used bicycles and distributes them to people around the world who are in need of low cost transportation. These bicycles provide underprivileged working adults with transportation that allows them to commute to work, transport produce to market, or access health care and other services.

On Sunday, November 9, Vertex employees and students from Penn State Great Valley operated a collection site at the Vertex Corporate Headquarters in Berwyn where bicycles in good condition were donated, disassembled, and prepared for shipment to an overseas destination.

The collection drive yielded 30 bicycles, which will be shipped to the Republic of Moldova – a landlocked country in Eastern Europe located between Romania and the Ukraine. To further support the collection drive, Vertex held an employee bake sale on Friday, November 7, and was able to raise over \$300, which was donated to P4P.

To date, P4P has shipped more than 115,000 bicycles to developing countries in Latin America, Africa, and the Pacific Islands.

ABOUT VERTEX INC.

With more than 30 years of experience, Vertex Inc. is the leading provider of advanced tax technology solutions and process management services worldwide.

Vertex solutions help companies streamline and integrate tax provision and compliance processes, and leverage information to discover new strategic tax savings across every major line of business tax, including income, sales, consumer use, value added, communications, and payroll. To serve its customers, Vertex works in partnership with the world's leading providers of ERP software and related services.

Founded in 1978, Vertex is a privately held company that employs more than 600 professionals at its headquarters in the U.S. (Berwyn, PA) and its offices in Europe (London), Atlanta, Chicago, Dallas, Phoenix, San Francisco, Sarasota, and Washington, DC.
