Top Innovations in Corporate Tax Recognized at Vertex Exchange 2011

Annual Corporate Tax Innovation Awards recognize innovative solutions across all tax types that use Vertex products and services

Berwyn, PA – November 1, 2011 – For any company, managing tax effectively and efficiently means reduced risk, increased resources and a positive impact on the bottom-line. This has become especially true in an era of hyper-regulation for corporate tax, where technology and innovation prove to be the best tools for streamlining the tax process.

To recognize the innovations in process and technology that have helped unleash the strategic potential of corporate tax, [Vertex Inc.](#), the leading provider of corporate enterprise tax solutions, announced the winners of the 2011 Corporate Tax Innovation Awards. This year's winners, AEGON USA, AMETEK, Inc., JPMorgan Chase & Co., lululemon athletica and Herbalife Ltd., were honored in front of an audience of over 575 of their peers at Vertex's annual customer conference, [Vertex Exchange 2011](#), on October 24 - 26 at the Bellagio Hotel in Las Vegas, NV.

"Each of this year's honorees exhibits how innovation is the key to unlocking the full potential of corporate tax," said [Jeff Westphal](#), President and Chief Executive Officer of Vertex Inc. "We're proud to provide companies all over the world with the tools and technology to succeed in tax, but the true value of our solutions comes from how they are customized and implemented by an organization for their specific needs and challenges."

Since 2004, Vertex's Corporate Tax Innovation Awards have recognized forward-thinking organizations that have discovered inventive ways to leverage their Vertex Solutions to overcome real-world business issues. Winners are selected based on their innovative use of Vertex's corporate enterprise tax solutions and services, how they are tailored to their company's specific needs and the development of new best practices in corporate tax.

Every year Vertex Exchange offers hands-on training for users of Vertex's software and services and provides attendees with thought leadership and insight into corporate tax operations, including processes, technology and regulations. Now in its 10th year, this year's conference included over 575 attendees from 320 companies.

About Vertex

Founded in 1978, [Vertex Inc.](#) is the leading provider of corporate enterprise tax software and services worldwide.

Vertex helps companies realize the full financial and strategic potential of corporate tax, offering a variety of solutions that streamline, integrate and automate corporate tax processes. Vertex solutions serve multinational corporations in every major line of business tax including; income, sales, consumer use, value added, communications and payroll.

The company's offerings are showcased by [Vertex® Enterprise](#), a data-driven, open-architecture approach to tax technology that integrates all direct and indirect tax processes and technologies with host financial system applications on a single platform. The result is increased efficiency, control, transparency and strategic decision making for Tax and Finance departments.

Vertex is a privately held company that employs over 600 professionals across the globe, at its headquarters in the U.S. (Berwyn, Pa.) and offices in Europe (London), Brazil (São Paulo), Dallas, Fort Collins, Naperville, Phoenix and Sarasota.
