

## ComArch enters into partnership with Vertex

***ComArch, a global software provider and systems integrator entered into a strategic partnership with Vertex Inc., a leading provider of tax technology solutions. The result of the partnership will be the integration of ComArch TYTAN billing platform with Vertex products enabling ComArch products to keep up to date with complex and constantly changing communications taxation.***

ComArch TYTAN Billing Platform will be integrated with two flagship products, Vertex Communication Tax *Q Series* and Vertex Sales Tax *Q Series*, enabling ComArch to address tax differences across the United States. "From a business perspective this partnership gives us much more credibility with the local clients and opens up new possibilities of reaching new business partners." says Marek Wojciechowski, ComArch Global President. "At the same time our products will become more accustomed to the specificity of the North American market. "Technically, Vertex takes on the responsibility of dealing with the tax changes and will update the software according to the modifications in the tax regulations. As a result, ComArch will be able to concentrate on their core business."

Vertex Inc., the leading provider of tax technology solutions, serves more than 10,000 customers worldwide. Vertex solutions automate processes and enhance decision information across every major line of business tax including income, sales, consumer use, value added, communications, payroll and property. To serve its customers, Vertex works in partnership with leading software and service providers, including SAP, Oracle, Microsoft, IBM and PeopleSoft. Founded in 1978, Vertex is a privately held company that employs 600 professionals at its headquarters in Berwyn, PA and offices in Atlanta, Chicago, Dallas, Sarasota and Washington, DC.
