

Vertex and Coupa

Consumer Use Tax Determination

Improve tax determination with Vertex

Vertex provides powerful, automated tax determination for Coupa's Business Spend Management (BSM) platform. A seamless integration enables location identification as well as complex taxability logic to deliver a precise tax calculation for purchases. Integrating a Vertex tax engine ensures the latest tax content with reduced system update requirements.

Robust Integration

The Vertex tax engine integrates seamlessly to Coupa Business Spend Management to automate consumer use tax coding on requisitions and invoices, for even the most complex scenarios. This not only improves tax accuracy for reduced audit risk, but it streamlines Accounts Payable processes enabling AP professionals to focus more on invoice approval and shorten payment cycles.

Leverage a Vertex-built and -supported integration to Coupa to create a reliable, repeatable procurement process for reduced audit risk, increase internal efficiency, and improved vendor relationships.

The Vertex integration has achieved the requirements of the CoupaLink Certified Technology program. The [CoupaLink](#) program enables software partners to build complementary solutions that easily connect into the Coupa platform. Customers benefit by optimizing their business spend, reducing risk, and saving the cost of third-party software integration.
