

Vertex and Adobe Commerce

Sales Tax Determination

Improve tax determination with Vertex

Vertex provides powerful, automated tax determination for Adobe Commerce. A seamless integration enables location identification as well as complex taxability logic to deliver a precise tax calculation for every transaction. Integrating a Vertex tax engine ensures the latest tax content with reduced system update requirements.

Robust Integration

Vertex tax solutions for Adobe Commerce integrate seamlessly to simplify the management of tax determination and compliance for even the most complex scenarios. This reduces the burden on your finance, tax, and technology teams, while increasing usability for reporting and returns, and reducing audit risk and exposure.

Our Partnership

A trusted partner and leader in the Adobe Commerce ecosystem, Vertex continues to develop and deliver innovative tax solutions to help customers extend the value of their Adobe Commerce investments, streamline tax determination and compliance, and accelerate business growth.

After developing this powerful tax integration, Vertex has been recognized as a Premier Partner in the Adobe Exchange program, providing customers with improved flexibility to meet changing tax requirements, while leveraging comprehensive tax content and advanced infrastructure.

Powerful Benefits

Extend the value of your Adobe Commerce solution.

Improved ROI and faster time-to-value for the Vertex tax engine.

Increased efficiency of Finance, Tax, and IT teams.

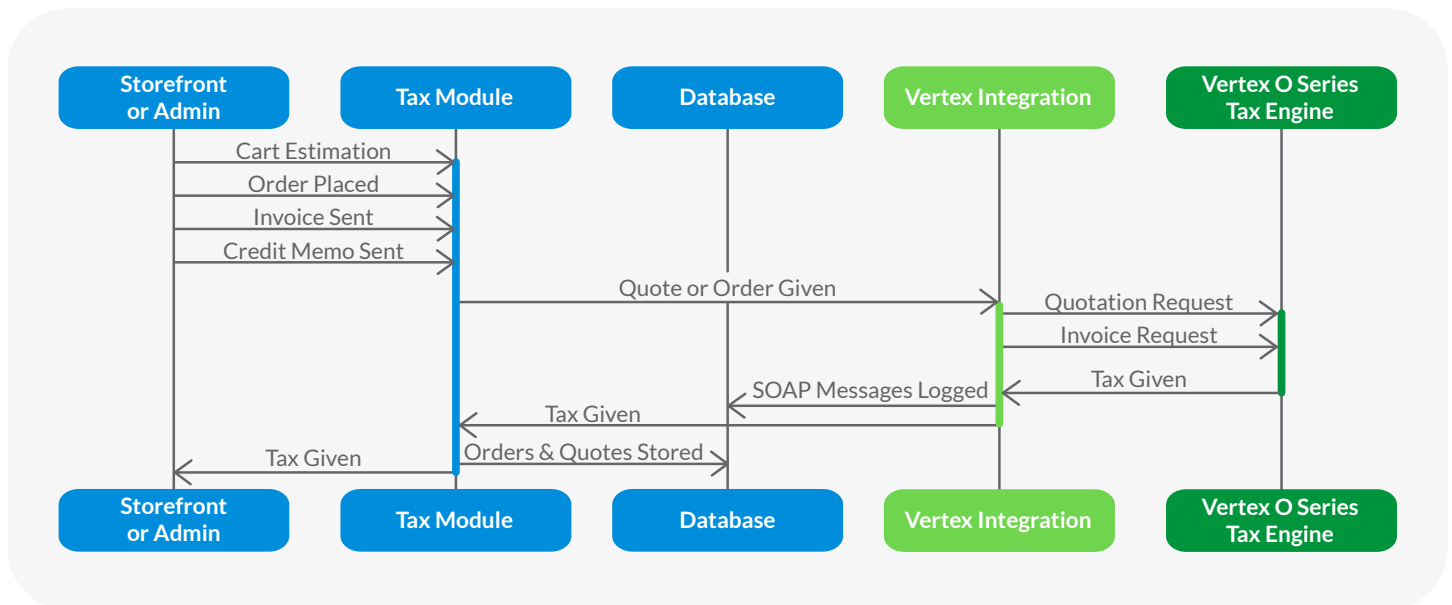

Improved scalability.

Backed by a global Vertex team of Adobe-certified implementation consultants and support specialists.

Adobe Commerce Tax Request Flow

Vertex pulls the transaction details from Adobe Commerce to calculate sales tax and VAT in Vertex O Series and send that tax amount back to Adobe Commerce.

Vertex TaxCalc

Leverage the industry-leading global indirect tax calculation engine to improve tax accuracy, reduce audit risk, and enable business scalability.

- Robust global tax content including 300 million+ data-driven tax rules
- Custom taxability setup
- Address cleansing for accurate tax jurisdiction identification
- Reporting and data extracts
- Role-based security
- System scalability

About Vertex
