

Vertex and Microsoft Dynamics 365 Commerce

Sales and Use Tax Determination

Improve tax determination with Vertex

Vertex provides powerful, automated tax determination for Microsoft Dynamics 365 Commerce. A seamless turnkey integration delivers real-time tax calculations based on continually updated tax content and precise location determination for improved accuracy and efficiency.

Robust Integration

Vertex provides seamless integration to Microsoft Dynamics 365 Commerce, simplifying sales tax determination without constant Microsoft system updates. Address cleansing and precise tax jurisdiction assignment relieves the need to manually populate and manage tax area codes within D365 improving accuracy and efficiency across all D365 modules. Developed and maintained by Vertex, the integration also offers flexible deployment options.

Supported workflows include:

- Cash & carry
- Buy online & pickup
- Buy in-store & ship
- Recall and return
- Call center orders
- Offline tax calculation (for brick & mortar stores which may not always have a dependable internet connection)

Our Partnership

A trusted Microsoft partner, Vertex is a leader in the Microsoft ecosystem, continuing to develop and deliver innovative tax solutions to help customers extend the value of their Microsoft Dynamics investments, streamlining tax determination and compliance, and enabling them to accelerate business growth.
