

Vertex and Oracle: Accelerating Global Commerce

Leveraging a partnership built on helping businesses transact, comply, and grow with confidence. Vertex provides Oracle customers with the innovation, expertise, and integrated technology to manage global indirect tax across the ecosystem.

Our Partnership

For over 25 years, Vertex and Oracle have worked closely together to accelerate transformation, and drive innovation and better business outcomes for our joint customers. Built and strengthened on the principle of a trusted relationship, our partnership allows customers to benefit from automated tax technology and integrated solutions that streamline tax determination and compliance, across critical business functions in the enterprise, and around the world. More than just a partner, Oracle also relies on Vertex Indirect Tax Solutions to meet its own global business needs.

As member of the Oracle Partner Network (OPN), Vertex has been recognized as an Oracle Build Partner, who has achieved both Powered by and Integrated with Oracle Cloud. Vertex is also a member of NetSuite's SuiteCloud Developer Network.

Powerful Benefits

Vertex and Oracle are focused on innovating finance, improving the tax function and supporting business growth.

Improved tax & IT efficiency

Reduced risk

Streamlined tax and IT operations

Improved business scalability

Global Indirect Tax Solutions Across the Oracle Ecosystem

Superior Customer Experience

- Global team of Oracle-certified implementation consultants bring deep functional and technical expertise to every engagement.
- Knowledgeable, Oracle-certified support specialists available to help maintain optimal performance.

Advanced Technology

Built following Oracle’s development standards and guidelines, the innovative design of Vertex tax solutions for Oracle allows them to seamlessly integrate, enabling organizations to quickly take control of tax decisions and make changes with minimal IT assistance. Oracle customers can have confidence that Vertex solutions meet Oracle Cloud performance and security standards and will work as expected with Oracle applications and/or data hosted in OCI.
