

Vertex for e-Commerce

Automate global tax calculation and improve compliance for a seamless checkout experience.

Integrate Vertex for e-Commerce into your online sales journey to automate VAT/GST and U.S. sales tax calculations for digital goods and services for reduced risk and improved compliance.

Reliable Tax Determination

Vertex for e-Commerce offers end-to-end support and audit-ready reporting for small tax teams, simplifying compliance activities and ensuring accurate tax calculation and determination.

Vertex for e-Commerce accelerates the customer checkout experience by managing VAT/GST and U.S. sales tax calculation and invoicing in real time, and also provides the data and reports needed to support tax filing and remittance. It's an end-to-end solution for e-commerce sellers of digital goods and services. You'll improve the efficiency and accuracy of your e-commerce business and increase control and visibility for internal staff.

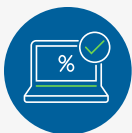

Minimize Risk

The solution is supported by a tax research team that maintains a robust tax content database helping ensure you stay up to date with evolving tax regulations and rate changes across countries and local jurisdictions. For transactions in the U.S. that's over 11,000 different taxing jurisdictions, each with changing legislation and tax reporting thresholds.

Support Business Growth

Empower your e-commerce business with Vertex's out-of-the-box compliance and seamless API integration, designed to facilitate global expansion and reduce tax burden. Accelerate compliant e-commerce transactions to strengthen your business today and confidently expand globally without worry.

- Foreign exchange rate management for seamless currency conversions
- Consulting, address cleansing, exemption certificate management and other Vertex products available for easy integration to Vertex for e-Commerce

Start Service to Go-Live Quickly and Confidently

Vertex provides a Start Service* to setup your solution, integrate it into your customer journey, and get you up and running quickly and confidently. The expert service includes implementation of the modules licensed, dashboard configuration, go-live support, and knowledge transfer.

Optional Service for Registration, Filing, Remittance

For a complete end-to-end solution, add-on the optional Advantage Plus service for VAT/GST registration, report preparation, filing, and remittance**. We can help you expand into new markets quickly and confidently, manage payments in multiple currencies**, and avoid late filing penalties. You'll outsource the administrative work yet stay in control with full transparency of workflows, document preparation and approvals – all managed from your Vertex user interface.

* Start Service is required. Refer to contract for complete service details. Service fee is based on the complement of modules, regions licensed, and complexity of needs

** where we provide filing service
