- Audit reporting

Automated Global Determination

A Vertex tax determination solution provides a globally accessible tax framework - reliable, efficient, scalable, and secure tax determination for Oracle Cloud ERP organizations.

- Global tax rates, legislative, and jurisdiction changes are automatically updated and maintained.
- Multi-jurisdictions, multi-channels, multiple source system support (easily migrate from Oracle E-Business Suite)
- Centralize, structure, and tax-sensitize business data across sales and procurement
- Streamline accurate estimates, invoicing, billing, payment, and CTC support
- Reduce (or eliminate) monthly tax research
- Eliminate tax content updates in every supported system
- Eliminate need for IT to manage custom code, custom configuration, master data updates, content updates, custom reporting & data analytics
- Improve tax accuracy on standard and complex scenarios
- Manage exemptions, currency, and B2G/B2B VAT ID validation
- Support high transaction volumes and large invoices
- Improve reporting for reconciliation, recovery, and internal analysis
- Be ready for customer inquiries and audit defense

Robust Integration

The Vertex Accelerator for Oracle Cloud ERP provides push-button setup of the Vertex integration and tax engine. A powerful user interface streamlines the integration process and user management. Flexible mapping gets you up and running quickly to improve time to value. Collect and augment the right data from your ERP for each transaction for accurate calculation wherever you do business. AI-enhanced with agentic capabilities, the Vertex Accelerator for Oracle Cloud ERP uses intelligent automation to continuously improve tax data accuracy, governance, and downstream compliance processes.

Continuous Compliance Control

Integrating Vertex with Oracle Cloud ERP does more than improve tax determination on every transaction—it captures tax-relevant data at a far more granular level and applies consistent structure and validation across sales and procurement. This creates a single, governed source of high-quality tax data that strengthens downstream processes, including localized invoicing, e-invoicing, reconciliation, compliance and reporting, and audit defense.

Global Tax Compliance and e-Invoicing

Vertex provides Oracle Cloud ERP multi-national users with a single, integrated, cloud platform to streamline multi-system compliance for periodic returns, e-invoicing, and e-reporting across the organization.

US/Canada Returns

- Integrated calc & returns using Vertex O Series Cloud & Vertex Express Returns
- Full-function automated returns generation from any data source using Vertex Indirect Tax Returns North America)
- Outsource SUT, CUT, and Canada GST compliance – from returns generation and approval, to filing, remittance, and notice management.

Global e-Invoicing and VAT Returns

- Streamline e-invoicing data transmission to and from Oracle Cloud ERP
- Single connection points to automate multi-country, multi-entity VAT obligations for sales and purchasing transactions
- Continuous transaction control to meet global reporting requirements
- Digitization mandates supported worldwide – SAF-T, UK MTD, Spain SII, and the latest e-invoicing regulations
- e-Invoice creation, validation, submission & clearance (including Peppol) returning necessary artifacts back to the billing system
- Periodic VAT reporting including VAT ID validation, built-in currency conversion, and aggregated or consolidated reporting
- Automated reconciliation between e-invoicing, e-reporting, and periodic filing against the Oracle GL
- Standardize data, streamline workflows, and defend audits

Continuous Transaction Control

Automate, govern, and defend e-invoicing, e-reporting, and period filing:

- Collect the right data from your ERP for each reporting requirement
- Ensure invoices or billing docs are signed, cleared, reported, and returned
- Ensure periodic reports and returns are created accurately, validated, reconciled, and centralized
- Built-in status tracking, workflow, archiving, and audit support to meet internal pressure, external deadlines, and inquiries.

Robust Integrations

Vertex pre-built and validated compliance integrations and integrated returns for Oracle Cloud ERP translate calculation data into compliant reporting. This saves time and drives efficiency collecting the right data, improving data accuracy, and streamlining the compliance process.
