

Vertex and Oracle CPQ Cloud (Configure, Price, and Quote)

Sales, Use, and Value Added Tax Determination

Improve tax determination with Vertex

Vertex provides powerful, automated tax determination for Oracle CPQ Cloud. A seamless integration enables location identification as well as complex taxability logic to deliver a precise tax calculation for every transaction. Integrating a Vertex tax engine ensures the latest tax content with reduced system update requirements.

Robust Integration

Vertex tax solutions for Oracle CPQ Cloud integrate seamlessly to simplify the management of tax determination and compliance for even the most complex scenarios of sales, use, and value-added tax (VAT). This reduces the burden on your finance, tax, and technology teams, while increasing usability for reporting and returns, and reducing audit risk and exposure.

Our Partnership

For more than 30 years, Vertex has been a trusted and recognized leader in the Oracle ecosystem, driving innovation through deep collaboration and co-development. Vertex delivers purpose-built tax solutions that help organizations extend the value of their Oracle investments—streamlining end-to-end tax determination from calculation through AI-enabled automation and compliance, while supporting scalable, global growth.

As the only tax technology partner recognized by Oracle with “Partner Innovation” and “Best in Class” awards three times, Vertex continues to set the standard for innovation with AI-enhanced, Oracle-validated solutions available on the Oracle Marketplace.
